Bachelor of Computer Engineering
Sharif University of Technology, Tehran
Founder of **AYOT**

Education

•Sharif University of Technology *2018-24*
B.Sc in Computer Engineering GPA: 3.73/4

•Allameh Hellil Highschool *2015-18*
Affiliated with the National Organization for Development of Exceptional Talents Diploma in Mathematics and Physics

Research Experience

•Sharif IoT Research Center *Jul. 2022 - Present*
Research Assistant Dr. Siavash Bayat

– Working on an MQTT based platform to control and monitor ESP8266 based devices remotely

•Sharif Natural Language Processing Lab *Oct. 2022 - Nov. 2023*
Research Assistant Dr. Ehsan Asgari

– Developing NLU capable bots for a customized Matrix powered messaging platform (Undergraduate thesis)
– Style transformation in the Persian language from informal to formal (Paper)
– IoT devices capable of answering client questions based on their catalog and guide book

Work Experience

•AYOT *2021 - Present*
Founder, Managing Director, Software Engineer Sharif Innovation Park, Tehran

– Following my passion for both entrepreneurship and IoT.
– Picking up countless hard and soft skills through out the process and in various courses.
– Smart Home IoT Platform, Co-founded by Dr. Siavash Bayat
– Collaborating with Snowa - The Number one Home appliance manufacturer in Iran.

•Digikala :: Jet *2022 - 2023*
Software engineer Tehran, Iran

– Working on the number one E-commerce and Q-commerce platform in the country.
– Maintaining over 200,000 lines of legacy code, and starting the redesign process.
– Working with one of the best engineering teams that I've ever met.

•Ostad Kar *2021 - 2022*
Software engineer Tehran, Iran

– Second semester of computer engineering department's Co-Op program.
– First experience as a back-end developer, learned about clean code and design patterns.
– Maintaining the back-end server and automating various processes that were being done manually.
– Maintaining the CI-CD process and learning about the DevOps and deployment side of software.

•Faraz Pardazan *2020 - 2021*
iOS Developer Tehran, Iran

– First semester of computer engineering department's Co-Op program.
– Worked on a banking application with over 200,000 monthly active users.
– First experience as a Developer.

Publications

•**Style transformation in the Persian language from informal to formal** *Work in progress*
***Saee Saadat**, Neda Taghizadeh, Vida Ramezanian, Hamid Jahad, Ehsan Asgari*

•**Persian informal to formal dataset with over six million entries** *LREC 2023, Under review*
***Saee Saadat**, Neda Taghizadeh, Vida Ramezanian, Hamid Jahad, Ehsan Asgari*

•**Computer Simulations Textbook** *2024*
*Bardia Safaei, **Saee Saadat**, Neda Taghizadeh, Negar Nobakhti, Alireza GhahramaniKure, Mohammad Ali Kakavand*

Technical Skills

Programming Languages: Python, Swift, Go, PHP, C++, Java, HTML+CSS+JS, Dart

Frameworks: FastAPI, Flask, UIKit, NodeJS, Gin, Symfony, Flutter, ...

Libraries: Tensorflow, Transformers, PyTorch, Huggingface, SQLAlchemy, ...

Cloud/Databases: Relational Database(mySql, PostgreSQL), Docker, Cloud based development, Redis, CI/CD, MongoDb

Dev Tools: Git, Unix (Linux and Mac), Terminal (Bash/zsh), Copilot, Jetbrains IDEs, VScode, vim, LaTeX, REST-API, gRPC, MQTT, WebSocket, Agile Development, Scrum, Kanban, Jira, Gitlab, Jenkins

Soft Skills

Team Work: Adaptable, Social and outgoing, Good at leadership and project management

Learning: Self learner, Fast learner, Capable of assisting others through the process

Communication: Fluent speaker, Good communication skills, Engaging and visually rich presentations through various tools

Attention to Details: Taking the project up to eleven

Optimization: Always trying to enhance performance by using automation and the right tools

Ideas Man: Good understanding of the product and business, Good at brainstorming sessions

Tech Enthusiast: I understand technology, follow everything tech related and can figure it out fast!

Research Interests

•**Internet of Things**

•**Software Engineering**

•**Automation**

•**Augmented reality**

•**Human-Computer Interaction**

•**Natural Language Processing**

•**Computer Networks and Cyber security**

Teaching Assistant Experiences

•**Computer Simulations** Dr. Bardia Safaei *Fall 2023, Spring 2023*

•**Computer Networks** Dr. Laleh Arshadi *Spring 2023*

•**Database Design - Lead TA** Dr. Varmazyar *Spring 2021, Spring 2023*

•**Database Design** Dr. Fatemeh Baharifard *Spring 2023*

Positions of Responsibility

•**Technical and Media Staff** Sharif Winter Seminar Series *2019, 2020*

•**Media Staff - Photography and editing** acm ICPC *2020, 2021*

•**Presenter, Singer, Staff, ...** All kinds of events through out college! I was there! *2019, 2023*

Other Interests and Hobbies

IoT passion projects with Arduino, Gym, Soccer, Music (Vocalist), Tech news, Table tennis

Language Proficiency

•**English** Fluent •**Persian** Native
